DETAILED ACTION

Claims 1-16 have been examined.

Allowable Subject Matter

Claims 1-8 are allowed.

Claims 9-16 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art of record, Barzilai et al. (U.S. Patent Application Publication 2002/0029201), discloses a method for business privacy in an electronic marketplace, including obtaining privacy-use instructions for the participants (e.g., Abstract; paragraphs 11-14). Barzilai does not disclose identifying collaborative groups of two or more participants who are presenting a collaborative transaction to the electronic marketplace, but such groups, and the identification thereof, are well known, as taught, for example, by Van Horn et al. (U.S. Patent 6,604,089). However, neither Barzilai nor any other prior art of record discloses or reasonably suggests creating an aggregate privacy policy for each collaborative transaction, based on privacy-use information from each participant in each collaborative group, and presenting to the electronic marketplace the aggregate privacy policy for each collaborative transaction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stolfo et al. (U.S. Patent Application Publication 2006/0247982) disclose electronic purchase over a communications network, including physical delivery, while securing private and personal information of the purchaser.
